REPAIR CAFÉ · PLEASE READ AND SIGN

VISITOR AGREEMENT

1. Welcome — and thank you for bringing something to repair instead of throwing it away.
2. Repairs are done by **volunteers**, for free. They do their best, but a repair is **never guaranteed**.
3. **You stay at the table** and take part in the repair. That is how you learn — and how we all learn.
4. A fixer may decide that an object **cannot be repaired safely here**. A clear "not today" is part of a safe Repair Café.
5. You remain responsible for your object. The organisers and volunteers are **not liable** for damage to or loss of the object, or for faults that appear after the repair.
6. Electrical items are checked before they leave the table. **The first plug-in after a repair is done by a supervisor.**
7. Repair and advice are free. If a **spare part** is needed, you buy it or pay for it.
8. We record each repair (object, fault, result, weight) **without your name**, to measure what stays out of the bin.

8 SAFETY RULES

1 KNOW YOUR SPACE

First-aid kit, extinguisher and the switch-off: find them before you start.

2 LIGHT, AIR, A CLEAR BENCH

Good light, an open window or extractor, nothing on the bench you don't need.

3 UNPLUG → BATTERIES OUT → OPEN

Never work on anything connected to the mains.

4 SOME THINGS STAY CLOSED

Microwaves, old CRT TVs, power supplies, gas appliances, swollen batteries.

5 DAMAGED BATTERIES: STOP

Swollen, hot or punctured? Isolate it in the metal box and call the facilitator.

6 GLASSES ON, IRON IN THE STAND

Hot tools always go back in the stand. Cut away from your body.

7 A FACILITATOR IS ALWAYS NEAR

Mains appliances only with a qualified adult — who also does the first plug-in.

8 IF IN DOUBT → STOP

"This can't be repaired safely here" is a good answer.
